

Q4/18 edition

open network partner program newsletter

Dear partner,

With the holiday season almost upon us, I'm pleased to bring you this year's final edition of our Amdocs Open Network Partner Program newsletter. I hope you enjoy our presentation of the latest news and updates from our partner ecosystem, including ONAP-related activities and what we've been doing at key industry events.

Here's a preview of this edition's hot topics:

- Amdocs partners with Versa Networks and Fortinet to introduce a pre-integrated NFV, SD-WAN & Advanced Security services orchestration solution
- EXFO completes its active service assurance product integration with Amdocs' NFV software and services portfolio
- Amdocs and VMware collaborate to integrate Amdocs NFV powered by ONAP with VMware vCloud Director

I wish you a happy and safe holiday season and look forward to engaging with you in 2019!

Ofer Farkash

Amdocs Open Network
NFV Partner Program Marketing Manager

Amdocs, Fortinet, and Versa Networks Accelerate CSPs service innovation

A new pre-integrated NFV orchestration packaged solution reduces the time and risk to launch SD-WAN and security services, while delivering agility, automation and scale in operations, ensuring a differentiated customer experience.
